Online degree, face-to-face feel.

Our online M.S. in Computing is a top-ranked online program. However, our academic strength is just one part of our truly successful program. From Day 1, you'll find a support network built from small class sizes, responsive faculty, and accessible career and financial services. Having that face-to-face experience is not a guarantee with online degrees, but we believe it's a critical part of student success.
